JUST GRIP

AVOLA
18389-08
OB A E FO HRO SRC
Size: 38-48

Weight: 400 gr.

Fit: 11

Working Environment:

 Food and Chemical industry, ESD
 Areas, Ho.Re.Ca.

FEATURES

UPPER

MicroFiber XPRO 1,8-2,0 mm

LINING

Bacteriostatic Teklife 3D

ANTISLIP LINING

DUALMICRO

INSOLE

Five 4 Fit

TYPE

Clogs

SOLE

PU-RUBBER VIBRAM "COLTELLO DESIGN"

Light and comfortable PU midsole. VIBRAM, COLTELLO, rubber outsole, designed for particularly slippery and wet work conditions. Extraordinary grip performance and excellent comfort.

TECHNOLOGIES

Removable Insole

Highly breathable and absorbent anatomic insole. Multilayer structure to take advantage of the peculiarities of each component. Dry and with a comfortable memory foam "pillow"

Lateral stability

dynamic HC control
 technology

Ergonomic rigid internal structure. It houses the heel into the right seat, adjusting the foot support and control of the ankle sideways movements. It keeps the foot tight to the shoe, allowing the perfect fit.

Electrical features

ESD footwear discharge static electricity and avoid damaging surrounding objects; they are designed in compliance with the following standards: IEC EN 61340-5-1:2016 - IEC EN 61340-4-3:2018 - IEC EN 61340-4-5:2018.

Protection elements

EN ISO 20347:2012

"Occupational" footwear with all the physico-chemical characteristics and the comfort of Sixton footwear. Footwear without safety toecap, with no anti-perforation insert.

Torsional stability

STABIL ACTIVE

Support made of rigid plastic material. It stabilizes the heel bone, the instep and tarsal joints, without altering energy absorption. A support for the natural movement of the foot; it provides comfort and greater stability.

Other

H.ABC
 HIGH ANTIBACTERIAL COMPONENT

Created for those who work in the HORECA sector, H.ABC footwear has new antibacterial components subjected to analysis by accredited laboratories. The results confirm the constant elimination activity of over 80% of bacterial load.
